TRANSFER OF VETERINARY MEDICAL ASSOCIATION MEMBERSHIPS.

The bureau is advised that the Missouri Veterinary Medical Association has inaugurated a movement in cooperation with veterinary medical associations of other States with the view of making it possible for a veterinarian of the Bureau of Animal Industry to transfer his membership in a veterinary medical association of one State to a similar association in another State when he is transferred from one State to another in the course of his official assignments. A list of the States which approve the plan will appear in the service announcements at a later date.

TO GET SUPPLIES OR EQUIPMENT FROM OTHER BRANCHES OF THE GOVERNMENT.

In order to facilitate the answering of queries and expedite the settlement of claims, all correspondence and negotiations looking to the procurement of supplies, equipment, or services from other branches or offices of the Government will hereafter be conducted by the Washington office.

To comply with this order, the initial step should be in the form of a written request asking the Washington office to attempt to obtain the articles or services described. This request should give complete description of what is desired, its contemplated use, and the probable source of supply.

BETTER DELIVERY OF TELEGRAMS.

In view of the recent arrangement with the telegraph companies whereby charge for official messages is made only for the words in the body of the telegram and not for the address or signature, it is believed that the transmission and delivery of messages will be improved by giving the full name, street and number, city and State of the addressee.
